**PERMIT NUMBER -PER11631**

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

**THIS PERMIT IS IN FORCE FROM 6 AUGUST 2009 TO 30 JUNE 2011.**

**Permit Holder:**  
**NSW DEPARTMENT OF PRIMARY INDUSTRIES**  
**161 KITE STREET**  
**ORANGE NSW 2800**

**Persons who can use the product under this permit:**  
Persons generally.

## CONDITIONS OF USE

### Product to be used:

NUFARM DIMETHOATE SYSTEMIC INSECTICIDE  
FARMOZ DIMETHOATE 400 SYSTEMIC INSECTICIDE  
PLUS OTHER REGISTERED PRODUCTS

Containing: 400 g/L dimethoate as their only active constituent.

SUPERWAY DIMETHOATE 300 SYSTEMIC INSECTICIDE  
PLUS OTHER REGISTERED PRODUCTS

Containing: 300 g/L dimethoate as their only active constituent.

### Directions for Use:

Situation	Pest	Rate
Turf areas (including golf courses, bowling greens, sporting fields, racecourses, parks and gardens and reserves).	Australian plague locust ( <i>Chortoicetes terminifera</i> )	<u>400 g/L dimethoate products:</u> Apply 750 mL per ha or 75 mL per 100L of water.  <u>300g/L dimethoate products:</u> Apply 1L per ha or 100 mL per 100L of water.

### Critical Use Comments:

- Treat areas only when locust swarms are causing significant damage. Dimethoate has a contact or stomach action. DO NOT spray as a preventive measure.
- Apply by ground application equipment only.
- Prior to spray application the area to be treated must be vacated by all persons other than those directly involved in the spray application.
- Public notification must be displayed before and after spraying for the duration of the re-entry period that includes the date and time of spray, name of chemical, re-entry period and contact persons and details.

### Re-entry:

Do not re-enter treated areas for 24 hours after application. If prior entry is required persons must wear full personal protective equipment (PPE) as specified on the product label for application of the chemical.

### Withholding Period:

DO NOT GRAZE TREATED AREAS OR USE GRASS CLIPPINGS FROM TREATED TURF AS FEED.

### Jurisdiction:

NSW only.

**Additional Conditions:**

This Permit provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.
