# Contents

## Preface

## Disclaimer

### Part A Introduction

- Chapter A1 About this manual
- Chapter A2 Ideal soil

### Part B Quick help

- Chapter B1 Trouble-shooting guide
- Chapter B2 Is my soil acid? Does it need lime?
- Chapter B3 Is my soil saline?
- Chapter B4 Does my soil need gypsum?
- Chapter B5 Poor seedling emergence
- Chapter B6 Does my soil form a surface crust?
- Chapter B7 Do I have gilgais?
- Chapter B8 Do I need to deep rip?
- Chapter B9 Is my soil suitable for direct drilling?
- Chapter B10 How do I control erosion?
- Chapter B11 Do I have enough organic matter?
- Chapter B12 Does my soil need fertiliser?
- Chapter B13 Weed control
- Chapter B14 Choosing the next crop
- Chapter B15 How wet can I cultivate?
- Chapter B16 Improving waterlogged soils

### Part C Soil types

- Chapter C1 Examining the soil profile (includes 8-page colour field guide)
- Chapter C2 Alternatives to a spade
- Chapter C3 Soil types and landscapes
- Chapter C4 Examining plant roots
- Chapter C5 Chemical soil tests

### Part D Practical soil management

- Chapter D1 Acidity
- Chapter D2 Salinity
- Chapter D3 Sodicity
- Chapter D4 Maintaining and improving soil structure
- Chapter D5 Erosion
- Chapter D6 Conservation farming
- Chapter D7 Using biological activity to improve soil
- Chapter D8 Improving soil chemical fertility
- Chapter D9 Grazing and pasture management
- Chapter D10 Soil-borne diseases
- Chapter D11 Managing gilgais
- Chapter D12 Managing soil for efficient water use

### Part E Background information

- Chapter E1 Soil structure
- Chapter E2 Soil-structure rating system

## **Appendixes**

- Appendix 1 Acknowledgments
- Appendix 2 Further reading
- Appendix 3 Useful terms
- Appendix 4 Soil description sheets

## **Subject index**

# Preface

This manual is a guide to best-practice soil management for dryland farmers in the Murray and Murrumbidgee catchments.

It is based upon an accumulation of information derived over many years from numerous research workers, public and private sector advisers and agribusiness. Without that body of knowledge, this SOILpak could not have been produced.

Organisations and individuals who have contributed to the production of this manual include:

- NSW Agriculture
- CSIRO
- NSW Department of Land and Water Conservation
- local farmers.

A list of contributors and reference material is presented in Appendix 1.

## **FUNDING**

This project was funded by the National Landcare Program.

## **PROJECT COMMITTEE**

Martin Blumenthal, Greg Fenton, Mark Conyers, Peter Orchard, Tom Green, Hamish Cresswell, Peter Regan, John McGrath, Paul I'Anson, Brian Murphy and John Francis.

## **REVIEWERS**

Mark Conyers, Ian Daniells and Catherine Evans.

## **COMPILED BY**

Nathalie Brown, Soils Advisory Officer, NSW Agriculture  
Tom Green, Senior Technical Officer, Land and Water, CSIRO

# Disclaimer

It is important to read this disclaimer before using the manual. NSW Agriculture, CSIRO, NSW Department of Land and Water Conservation (DLWC) and National Landcare Program (NLP), by releasing and printing this manual and the information contained in it, do not assume any liability for any crop loss, animal loss, public health impacts, safety or environmental hazards caused by the use of any part or the whole of this manual.

Whilst every attempt has been made to ensure the accuracy and integrity of the information and description sheets supplied in this manual, it should be understood that (due to new research information, new industry experiences, unpredictable weather and variations in the way individual farmers set up equipment or have access to equipment) no warranty or guarantee is given or implied by the above organisations, nor by the people working or contracted by those organisations to supply the information. The manual does not claim to be complete and all inclusive, but it aims to grow with the input of all who use and report on it.

Where trade names of products and equipment are used, no endorsement is intended, nor is criticism implied of products not mentioned.

This manual does not contain a complete statement of all relevant legal obligations. You should seek your own legal advice as to both legislative and general legal obligations, in particular those legal obligations arising under environmental laws and the general laws of negligence.
