

Longwall Hydraulic Hazards Workshop

Agenda

9.00am – 4.00pm 16 May 2007

Log Cabin Conference Centre, Memorial Avenue, Penrith.

NSW DEPARTMENT OF
PRIMARY INDUSTRIES

Time	Presenter	Topic
8.45am	Registration	
9.00am	Gordon Jervis DPI	Opening Address
9.15am	Wally Koppe DPI Clayton McLellan (Consultant)	People being injured & killed with high pressure hydraulics
9.40am 10.10am	Paul Gill Xstrata	Interacting with Hydraulic Systems. <ul style="list-style-type: none"> Life cycle testing of staples. Permit & verification system Audit against MDG 41.
10.10am	Morning Tea	
10.20am 10.40am	Paul Gill Xstrata	Continued
10.40am 11.10am	Jerry Hessenberger BHPBilliton	Longwall pump station reliability review and improvements.
11.10am 11.50am	Colin Parrish Joy	Strategies re MDG41 Application ~ Meeting OEM Hydraulic Safety Obligations
11.50am 12.45pm	Luke Jenner DBT	Staple retention & outcomes Safety Initiatives
12.45pm	Lunch	
1.15pm 1.35pm	Walter Pizzato SES	Hydraulic Decompression Valve Safety System
1.35pm 1.55pm	Tim Leeson Inoxihp	Isolation concepts.
1.55pm 2.15pm	Gary Nauer Parker	Staple concept and failure modes Staple testing and specification Mine Sleeve (hose burst protection)
2.20pm 2.35pm	Michael Depergola Pirtek	Improving hose & fitting reliability
2.35pm 2.50pm	Leigh Morrison Ryco	Hazardous hydraulics – Quantify the hazards Improving hose inspection standards Factor of Safety
2.50pm 3.05pm	Brenton Holmes Alfagomma	Considerations for effective hose management
3.05pm 3.15pm	Paul Drain DPI	Pump Station Audit Overview “4 P” Philosophy, Policy, Procedures and Practices
3.15pm	Trevor Schram District Check Inspector	Check Inspectors point of view. Closing review
Close	Travel Home Safely
