

Summary of important metallic and industrial minerals projects and extensions in NSW (at August 2007).						
Project Name	Commodity	Operation	Estimated Capital Investment (\$M)	Estimated Jobs	Location	Project Status
Broken Hill North Mine Deeps	Silver, lead, zinc	Underground	100	NA	Broken Hill City (old North mine)	Active new project
Broken Hill Rasp Mine (CML7)	Silver, lead, zinc	Underground	110	90	Broken Hill City (old South mine)	Active new project
Broula	Magnetite	Open cut	NA	19	19 km from Cowra	Approved project
Cadia East	Gold (copper)	Open cut/underground	1500	200	21 km SSW of Orange	Active new project
Copper Hill	Copper, gold	Open cut	330	200	4 km North of Molong	Active new project
Dubbo Zirconia	Zirconia, yttria, tantalum, niobium	Open cut, processing plant	90	80	20 km South of Dubbo	Active new project
Euston	Mineral sands	Open cut	NA	NA	45 km ESE of Wentworth	Active new project
Hera	Gold, base metals	Underground	40	NA	South of Nymagee	Active new project
Lewis Ponds	Gold, base metals	Open cut/underground	30	NA	20 km East of Orange	Active new project
Northparkes E48	Copper (gold, silver)	Underground	185	NA	27 km NW of Parkes	Approved project
Pinnacles	Base metals, copper, gold	Open cut	400	500	15 km SW of Broken Hill	Active new project
Potosi	Base metals	Underground	30	NA	3 km North of Broken Hill	Approved project
Ridgeway Deeps	Gold (copper)	Underground	545	NA	20 SW of Orange	Approved extension
Snapper	Mineral sands	Open cut	105	100	175 km SE of Broken Hill	Approved project
Syerston	Nickel, cobalt	Open cut	500	300	50 km NE of Condoblin	Approved project
Tomingley/Wyoming	Gold	Open cut/underground	25	80	12 km North of Peak Hill	Active new project
Woodlawn	Base metals, gold	Underground	150	200	48 km SW of Goulburn	Active new project
