

Current Mining Issues

Paul Healey
Area Manager North-East
Mine Safety Operations
NSW DPI

New Legislation

- Notifiable Incidents
- MHSMS's & MHMP's
- High Risk Activities
- Management Structure
- OHS Regulation

Projects

- Wran Recommendations
- Audit Implementation of Act & Regs
- Contractors
- Emergency Management Systems
- Guidelines & COP's
- Engineering Projects

Incidents

- Electric Shock
- Hydraulic Fluid Escape
- Unplanned Movement
- General Industrial Accidents
- Strata? Explosion? Fire?
- Major catastrophe ?????

Issues

- Confusion re incidents
- Attendance at incidents
- Classification of incidents
- Paper war Vs “on the beat”
- Quality of Systems, RA’s & Investigations
- Digging Deeper Recommendations
- Sago implications

Positives

- Good transition to new legislation
- Improving Consultation
- OHS Reg, manual handling, noise, construction, etc
- Examples of collaborative mine designs
- CSAC (and other stakeholder groups)
- JCB Order 34 (Training)
- Today
