

Safety Alert - MP 001 A 2009: Scissor Lifts Tables / Scissor Hoists.

18th September 2009

We refer to scissor lift table that may be in operation in your organisation. On 16th September 2009 an operator of the scissor lift table sustained fatal crush injuries during maintenance. We are unsure as to the cause of the incident at this time and it is the subject of further investigations by the relevant statutory authorities.

In the interest of health & safety we recommend care be exercised when operating and maintaining the scissor lift table. Should you have any concerns or require any assistance with the use, operation and/ or maintenance of the scissor lift table, please do not hesitate to contact our office immediately. We will provide further information and advise in due course.

Yours Faithfully

Mr. Peter Bonselaar
Managing Director
Morris Powerlec
