To publish or not to publish: I confirm that my completed questionnaire does not contain sensitive information and can be published in full on the Department of Primary Industries website.

Select your interests: Sustainable access to timber resources, Research and development, Conservation reserve system, Threatened species, Heritage values, Employment in forest and wood products industries, Recreation and tourism

Other interests:

How effective do you think the RFAs have been : Not effective

What elements would you want to see retained and remain unchanged : manage native forests

What elements would you want to change?: do not log native healthy trees

Simplifying the RFAs and removing redundant or duplicated commitments?: Important

Maintaining a strong focus on triple bottom line outcomes?: Very important

Updating references to legislation, codes of practice or new regulation? : Important

Alignment with contemporary policies and programs?: Important

Alignment with the National Forest Policy Statement and global agreements on sustainable forestry?: Important

Improving review and reporting requirements: Important

What improvements could be made to the five yearly review and consultation processes?: Put more emphasis on native flora and fauna

What improvements could be made to support the day-to-day implementation of RFAs?: Establish consensus amongst stakeholders

What further research and monitoring could be important to consider for future RFAs?: Strengthen independent unbiased research and monitoring

What improvements could be made to RFA related communication?: Tell the truth and consider all stakeholders

What improvements could be made to the RFA implementation framework to support a rolling extension mechanism?: Avoid logging healthy native trees in native forests

What other improvements could be made to the RFA framework?: In native forests: Cut any exotic trees and control weeds
