

Managing dual-purpose grazing cereals in NSW farming systems

Get the latest industry information

FREE Grower and agronomist workshop with interactive morning session with key industry speakers followed by visit to a grazing cereal technology trial site in afternoon (program overleaf).

**11 October 2018: Cudal Bowling Club, Browns St
(Canowindra Rd), Cudal**

**17 October 2018: Holbrook Returned Servicemen's Club,
38 Swift St, Holbrook**

RSVP please for catering purposes

Jennifer Pumpa, jennifer.pumpa@dpi.nsw.gov.au, phone (02) 6938 1964

Peter Matthews, phone (02) 6391 3198, email peter.matthews@dpi.nsw.gov.au

Time	Topics	Speaker
9:00 am	Welcome and background	
9:15 am	Winter cereals: What drives growth and development?	Dr Felicity Harris, Research Scientist (Crop Physiology), NSW DPI
9:50 am	Getting the crop agronomy right	Peter Matthews, Technical Specialist, NSW DPI
10:20 am	Crop nutrition – developing a plan to maximise fodder production and grain recovery	David Harbison, Senior Agronomist, D R Agriculture Pty Ltd.
10:55 am	Morning tea	
11:15 am	Grazing crops with stock – what are the issues?	Brett Littler, Senior Livestock Officer, Central Tablelands Local Land Services.
11:50 am	Grazing crops: What can we learn from the rest of the world?	Stuart Tait, Nuffield Australia Scholar (supported by Meat & Livestock Australia), Producer Mandurama.
12:25 pm	Grazing canola management – getting it right	Dr Susan Sprague, Research Scientist (Cudal) & Dr John Kirkegaard, Chief Research Scientist (Holbrook), Farming Systems, CSIRO
1:00 pm	Fodder pasture options: How they compare and fit in the system to lift farm fodder production.	Frank McRae, Product Development Manager, Auswest Seeds.
1:30 pm	Lunch	
	Travel to grazing cereal technology site	

2:30–4:30 pm: Field walk: Grazing cereal technology (directions below)

<p>Demonstration and trials onsite:</p> <ul style="list-style-type: none"> ✓ Wheat, barley, triticale and oat variety trials ✓ Wheat and oat nitrogen management trials ✓ Canola versus cereal demonstration ✓ Grass species versus cereal variety demonstration ✓ Grazing and non grazing cereal demonstration ✓ Foliar fertiliser demonstration (Holbrook) ✓ Alternative pasture and fodder crops demonstration – Auswest Seeds (Manildra) 	<p>Topics to be covered at field site as we walk through trials:</p> <p>Variety performance of wheat, barley, triticale, oats –Peter Matthews, NSW DPI and Seed company representatives.</p> <p>Subsurface acidity and impacts on plant growth and production – Helen Burns, Development Officer – Pastures, NSW DPI (Holbrook)</p> <p>Alternatives pastures options – Frank McRae & Kate Byrne Auswest Seeds (Manildra)</p> <p>Producer case studies on fitting grazing crops into their farming business:</p> <p>Greg Miller and family ‘Wondilla’, Manildra</p> <p>Andrew Landale, ‘Brigadoon’, Holbrook Seeds, Holbrook</p> <p>Morning speakers will also be present to discuss topics as we walk through the trials.</p>
