---

**Labelling samples:** Each sample is to be clearly labelled with the farm name, shed number and age, so the sample can be matched to the submission form

## **INSTRUCTIONS FOR SUBMITTING SAMPLES**

- Completed swabs must be protected from direct sunlight and stored in the fridge until collected for dispatch
- Samples are sent to Birling Avian Laboratories as soon as possible and within 24 hours after collection
- Samples are securely packaged with the correct laboratory submission paperwork. All information must be clearly printed on the label and the form packaged to ensure the document is legible when received at the laboratory
- Samples are to be placed in an esky with freezer brick (or similar) to ensure the samples remain cool during transit
- Ensure that the esky is clearly labelled and secure
- Arrange for pickup and transportation to the laboratory

Samples are to be sent by Australia Post Express Post or courier.  
Postage or delivery costs are the responsibility of the farm business.

Post samples to:  
PO Box 111 Bringelly 2556

Courier samples to be delivered to:  
975 The Northern Rd,  
Bringelly NSW 2556

If you have any questions about sampling, labelling or submitting samples contact:
