Natural Disaster Assistance Reference Guide for Primary Producers

NSW Tropical Cyclone Alfred Severe Weather - Category B Declaration (AGRN 1198)

The impact of natural disasters can affect primary producers beyond their own resilience levels, requiring assistance to recover personally and financially.

NSW Department of Primary Industries and Regional Development (NSW DPIRD) and Local Land Services (LLS) coordinate and provide assistance, resources and advice to landholders and primary producers including commercial fishers, aquaculturists, foresters and other industries impacted by a declared natural disaster event.

Visit <https://www.dpi.nsw.gov.au/emergencies/floods> or <https://www.lls.nsw.gov.au/help-and-advice/emergency-management> to stay up to date.

Reporting Damage

Reporting damage-Primary industries natural disaster damage assessment (PiNDDA)

NSW Department of Primary Industries and Regional Development gather, analyse and report on damage to primary industries and animals after natural disasters.

The primary industries natural disaster damage assessments (PiNDDA) help a range of government agencies, industry organisations and communities understand the scale and regional distribution of the impact of a disaster on agriculture, plan for recovery activities and target resources and assistance in an area.

To report damage, use this link <http://www.dpi.nsw.gov.au/damagesurvey> on your phone or computer to submit a survey.
