

American Foulbrood Traceback Beekeeper's Report

This form can be used by beekeepers that have had a recent outbreak of American Foulbrood (AFB) to notify NSW Primary Industries about a potential source of the AFB. Eliminating the source is important to prevent further spread.

Your details - please print.

First name:	Last name:	Registration number:
Contact telephone number:(home or business – include area code)		
(H):	(B):	Mobile:
Email:		

Your infected apiary location	
Date of last confirmed case of AFB	
Number of infected hives at the location	

Possible sources of infection

Any recent purchases or introduction of hive material: what material, from whom obtained, names, registration numbers	
Any treatment with antibiotics or supplementary feeding with patties or honey: what, when and how fed	
Any stored material of an unknown disease status used in the apiary, e.g. combs, source of the stored material	
Any known apiaries within 3 km radius from the infected apiary: location details Registration numbers on boxes	
List any other possible source of infection, shared equipment, neglected apiaries, rubbish tips, extracting sheds	

What is the most likely source of the AFB in your opinion?
