

FISHONLINE INFORMATION SHEET

FisherMobile - Fishing Activity Reporting

March 2019

Since 1 December 2017, authorised fishers in quota managed fisheries have been required to report quota usage in real time using the FisherMobile App.

For share classes moving to catch or effort quota management in 2019, share class fact sheets have been updated to detail the new reporting requirements that will apply (i.e. pre-fish, pre-land and post-land reports). For non-quota share classes, they explain existing arrangements and new rules that will apply (such as catch limits for quota managed species).

What is FisherMobile?

FisherMobile is a secure mobile application that enables real time reporting of quota usage and other commercial fishing activity by authorised fishers.

FisherMobile can be used after installing the FisherMobile App on a mobile device such as a smartphone, tablet or iPad.

Key FisherMobile functions include:

- Lodging and managing real time fishing activity reports relevant to your quota, including: pre-fish, pre-land and post-land reports
- viewing real time quota balances
- submitting catch and effort reports
- accessing digital authorities

How do I register for FisherMobile?

To register for FisherMobile, you must:

- hold an endorsement or current commercial fishing licence in NSW
- have ready access to a smartphone (android or iPhone) or other mobile device (e.g. tablet or iPad)
- agree and accept the terms and conditions of use for FishOnline

Agents of authorised fishers or commercial fishing licence holders are not eligible for FisherMobile.

If you meet the requirements for registration, complete and submit the application form which is available on the FishOnline website. An application form can also be requested by emailing FishOnline Support.

Once your application is processed, you will receive an SMS notification confirming creation of your account, login instructions and a temporary PIN. You will be required to change this temporary PIN the first time you log into FisherMobile.

When should I register for FisherMobile?

If you will be fishing in a quota managed fishery, you need to ensure you register for FisherMobile *and* download the app to your mobile device prior to the commencement of your commercial fishing activities.

Is my mobile device compatible with FisherMobile?

FisherMobile is compatible with most mobile devices including iPhone, iPad (iOS 5.0+) and Android Phone/Tablet (4+). It is important to access FisherMobile using the native browsers found on these devices. Third party browsers other than Google Chrome and Safari are not supported.
