1 Background

1.1 Heading

1.1.1 Sub heading

Normal text

Guidelines: This section should provide a background and context for the project including:

- Why it was undertaken;
- Its significance for industry; and
- Its overarching aims.

The background should clearly describe how it builds on, and relates to, previous research.

2 Project Objectives

2.1 Heading

2.1.1 Sub heading

Normal text

Guidelines: This section must state the project objectives/ milestones as worded in the research agreement.

3 Methodology

3.1 Heading

3.1.1 Sub heading

Normal text

Guidelines: This section should provide a full and succinct description of how the project was conducted including experimental design(s), measurements, and statistical analysis.

4 Results

4.1 Heading

4.1.1 Sub heading

Normal text

Guidelines: This section should include the key data sets with appropriate statistical analysis. Use of graphs and tables to summarise data is encouraged. All project data should be included as an appendix or supplied electronically.

5 Discussion

5.1 Heading

5.1.1 Sub heading

Normal text

Guidelines: Full consideration and interpretation of the results is required. Structure and wording should be clear and concise. A guide as to what content should be included in the discussion is listed below:

- Inferences and insights from the data relative to previous research;
- Practical implications for industry;
- Unanswered questions/additional research recommended;
- Draft extension messages (if relevant); and
- What could have been improved in the project delivery (what worked, what didn't).

This section must also include discussion of the extent to which each specific project objective was met. This includes writing the project objectives and placing a short summary underneath.

6 Conclusions/Recommendations

6.1 Heading

6.1.1 Sub heading

Normal text

Guidelines: This section should summarise key insights and implications from the project with a particular focus on how this relates to the sheep industry.

This section should include clear and concise recommendations for:

- Future R&D;
- Practical application of the project's insights and implications to the sheep industry; and
- Development and adoption activities which would ensure the sheep industry achieves full value from the project's findings.

7 Key Messages

7.1 Heading

7.1.1 Sub heading

Normal text

Guidelines: This section should describe the key communication messages for sheep producers/processors, focussing on:

- The different behaviours/practices that producers/processors should be adopting as a result of the project; and
- The likely economic, social and/or sustainability benefits to producers/processors from such changes.

8 Bibliography

8.1 Heading

8.1.1 Sub heading

Normal text

Guidelines: The Bibliography should be in the same style as the CSIRO's Animal Production Science Journal (<http://www.publish.csiro.au/nid/72.htm>)

9 Appendix

9.1 Heading

9.1.1 Sub heading

Normal text

Guidelines: Should include the location of any metadata.
