

# NSW equine neurological disease investigation workshops

NSW Department of Primary Industries will be hosting four workshops in March 2024 on neurological equine disease investigations, focussing on diseases of significance in NSW. This free event for NSW veterinarians and paraveterinarians provides an opportunity to reconnect with veterinary colleagues and earn structured CPD points.

## **Attendees will gain a better understanding of:**

- Clinical examination of neurological equids and differential diagnoses
- Process of notification - who to report to and when
- Descriptive analysis of submissions to NSW DPI
- Risk assessments of a neurological horse in the field
- Diagnostic sampling and interpreting lab results

## **Workshop inclusions:**

- 3 CPD points with a Certificate of Attendance
- A light dinner during the workshop
- A hard copy of the 'Neurological diseases of significance in equids' glovebox guide
- The NSW DPI Emergency Animal Diseases information pack

---

These workshops have been supported through the National Significant Disease Investigation Program.

## **For more information**

Contact NSW DPI NSW via [animal.biosecurity@dpi.nsw.gov.au](mailto:animal.biosecurity@dpi.nsw.gov.au) or visit our website: [dpi.nsw.gov.au/biosecurity/animal/info-vets](https://dpi.nsw.gov.au/biosecurity/animal/info-vets)

## **Join us**

We will be holding workshops in Singleton, Coffs Harbour, Camden and Wagga Wagga.
